

LCD Measuring Digital System

It is new type hardness tester which is equipped a Video Measuring camera and LCD monitor in the instrument of Digital Brinell, or Micro Vickers Hardness Tester.

Video Measuring Device is composed of CCD measuring camera, 6.8 inch colored LCD and other relative parts. By adding this Video Measuring Device, the indentation originally show on objective of hardness tester is now display on the LCD directly.

The working procedure is more visual and measuring is more accurate. Avoid seeing weariness and man-made error, and increase working efficiency. Many people can observe the working process at the same time. So the tester is warmly welcomed by many operators

CCD Automatically Image Measuring System

It combines computer automatic measuring system with hardness tester. By means of CCD Camera Interface connect Digital Brinell or micro Vickers hardness tester with computer. Whole testing operation can be processed by operating keyboard and mouse, therefore the operation is easy and measuring precision is high. Maximum decrease man-made error and avoid seeing weariness of the operator. It is an advance hardness tester which can meet the needs of various Digital Brinell or micro Vickers hardness testing.

Hardness Tester Accessories

Large Test Table

"V" Test Table

Flat Test Table

Fine wire test table

XY-stage test table

Diamond Indenter

Fork-shaped test table

Thin specimen test table

Ball Indenter
